VOLUME 103—NUMBER 24

DROP PROPOSED  
ACTION AGAINST  
2 OHIO MAYORSProhibition Commissioner  
Parker Says Both Have  
Started to Clean Up.Warning Given By State  
Has Desired Effect—  
Names Withheld.

Columbus, April 5.—Don V. Parker, state prohibition commissioner, announced that formal action would not be taken against Mayors of two Ohio cities for failure to enforce prohibition laws, in view of the fact that they have begun campaigns for law enforcement. He said the names of the cities under consideration would not be made public. He said the warning given these officials had had the desired effect.

SENATE TO COUNT  
NOSES ON BILLCaucus of Republicans to  
Be Held to Test Strength  
of Administration on Re-  
organization Bill.

Columbus, April 5.—A caucus of senate Republicans was expected to be held today on Governor Davis' administrative code for the reorganization of state government. There is said to be no question but what there are sufficient votes in the senate to pass the bill with the emergency clause.

Senator J. F. Burke, Ellyria, and Senator George H. Bender, Cuyahoga county are the only Republicans who have declared themselves opposed to the emergency clause. Senator Reynolds, Democrat of Cuyahoga county, is also expected to oppose the bill and the emergency clause.

The reorganization bill will be made a special order of business for tomorrow afternoon in the senate.

The senate was operating today under direction of a steering committee which will determine what bills are to go on the calendar each day for passage. Senator Whittemore, Summit county is chairman of the committee.

Private liability insurance companies seeking to amend the workmen's compensation act so as to permit them to enter into competition with the state fund, having failed to put through the Burns bill in the house, have introduced a similar bill in the senate through Senator Culbert of Sandusky county.

The senate is to meet this afternoon for a brief session after which it will adjourn to allow the taxation and finance committee to work on important bills before them.

The Norwood bill to allow Judge to fix the minimum penalty in felony cases thus practically repealing the indeterminate sentence law, which passed both houses, has been allowed to become a law without action on the part of the governor. It was reported that the governor would veto the bill but he allowed it to become a law without action.

DENIES TOURISTS ARE  
MISTREATED IN JAPAN

Tokio, April 5.—Reports from United States of alleged mistreatment in Japan purporting to come from returned travelers from the Orient have caused C. Inomata of the Japan tourist bureau to issue a denial of such charges.

Mr. Inomata's statement is contained in a letter written to San Francisco for the purpose of letting would-be travelers know that contrary to stories circulated in the United States in some quarters, travel in this country is as safe as it ever was.

In explaining the letter Mr. Inomata said that if such reports continued in the United States it would mean a serious injury to tourist traffic, not only to the travel in Japan, but to the entire Orient for the reason that Japan has in the past been one of the chief attractions to those contemplating Oriental tours.

"We feel that Japan is being misrepresented in America," the statement says in part. "This emphasizes the importance, not to say necessity, of more Americans coming to Japan. Japan should not be judged by utterances, spoken or printed, of prejudiced or self-interested people. The truth of these utterances should not be blindly accepted, but tested by personal observation and experience."

"American tourists in Japan, many of whom call at our offices, are unanimous in their expression of satisfaction regarding the treatment they have received in this country. Americans are assured of courtesy and politeness and the good-will of our people."

COMPLETE ORGANIZATION  
FOR C. OF C. CANVASS

The Chamber of Commerce is completing the organization of the workers for the big "round-up" for members on Tuesday and Wednesday of next week. The "round-up" starts with a big rally dinner Monday night at 6:30 o'clock at the Masonic Temple, when two addresses and some good music will feature the program. At 4 o'clock Thursday afternoon the captains and workers will hold a meeting at the Chamber of Commerce to shape the final plans for the solicitation which will be made from 9 to 12 o'clock on Tuesday and Wednesday.

Tiffin—John Thom, Fostoria, held by police on a charge of aiding in a jail delivery here. Four prisoners escaped Friday night, having used saws, which police say Thom admits having furnished.

CARDINAL GIBBONS  
LEAVES BIG ESTATE

Baltimore, April 5.—The will of Cardinal Gibbons was filed in the orphans court yesterday, disposing of a personal estate of about \$109,000.

To Bishop O. B. Corrigan, administrator of the Baltimore diocese, the Rev. Louis J. Stikney, rector of the cathedral, and the Rev. Eugene J. Connelly, chancellor of the diocese, is left the bulk of the late prelate's estate. Under a will drawn in December, 1919, all the property owned by the cardinal in Virginia and West Virginia is bequeathed to Bishop Denis J. O'Connell of Richmond, Va.

In a memorandum left for the guidance of his executors, he designated the disposition of certain funds for Catholic educational purposes in the archdiocese. Personal legacies ranging from \$2,000 to Bishop Corrigan, down to \$500 for the servants of his household, also were specified in the memorandum.

CITY'S ACTION MAY  
STOP CAR SERVICE

Zanesville, April 5.—Zanesville is in danger of losing her city street car service. The action of council to reduce the fare from 6 to 5 cents following the installation of the "one man crew" on the cars may bring about such result. As the Ohio Electric is operating under a receiver, who must make the road pay or discontinue it, it is probable that if the city cars do not meet expenses council action will require that they be discontinued.

MAY NEED MONEY  
TO GET CLINICFinancial Help For Welfare  
Work Proposed by National Council Would Be  
Advantage to Towns  
Seeking Bureau.

The director of the National Child Health Council at Washington, who will visit Newark will be Clarence King who has succeeded Mr. Dinwiddie.

In reply to the question of whether the ability of the county to be selected to assist in the financial support of the would be a consideration a letter from the state department of health says:

"You know I wrote Mr. Dinwiddie about the matter of financial support from the city chosen, his answer is as follows: 'As to the question of money, I do think that the Council probably would be largely influenced by the desire and ability of the community and county to assume more and more of the responsibility in financing work that had been of proven value. No fixed policy on this has been worked out, but, speaking as an individual, I should hope to see the demonstration vary largely on the basis of local support at the end of the experiment.'"

I should not think this would need any immediate attention as Mr. King will undoubtedly be out to see you on the matter of the city's general fitness."

The city was complimented on the splendid clinic held for the crippled children of the city, the letter stating that it showed a wide-awake community and genuine interest.

ROAD TO UTICA  
IS NOW CLOSEDTraffic Is Detoured Over  
Waterworks Bridge and  
Thence North to Point  
Opposite Vanatta.

The Newark-Utica road is closed in the portion of the road now being made into the pike between here and St. Louisville and it is necessary to make a detour to get to St. Louisville. The detour starts at the waterworks road and is about five miles in length. Signs showing all of the changes in the road have been put up. To make the detour the driver turns east at the waterworks road, crosses the bridge and turns north along the waterworks hill until just north of Vanatta he can turn back onto the main road.

WIFE ILL AT HANOVER  
MAN HANGS HIMSELF

Minor McKnight, 72, of Frazesburg, hanged himself at the home of his daughter Mrs. Clyde Ridgeway of Trivinity, Monday. He had no relatives in his own house and that of his wife, who is critically ill at the home of her son Herbert in Hanover.

Mrs. McKnight has been at the home of her son Edward McKnight in Clarendon avenue for some time until two weeks ago when she was taken to Hanover. She recently suffered a stroke of paralysis.

Mr. McKnight, who is a retired and highly respected farmer of Frazesburg, was found by his daughter and her husband at 6 o'clock Monday morning hanging from a rope over a rafter in the garage. He was dead when found.

The deceased has been ailing for several weeks and on Saturday left his home in Frazesburg for his daughter's home.

He is said to have acted queerly on Sunday and to have threatened to take his life. It is said that he left the house Sunday night with the intention of hanging himself but he was overtaken and returned to the house by members of the family.

Later he slipped out while the family were sleeping and accomplished his purpose.

He is survived by his wife, two sons, Edward of Clarendon avenue, Newark, Herbert of Hanover and two daughters Mrs. Edward Norris of Frazesburg and Mrs. Clyde Ridgeway of Trivinity.

Funeral services will be held Wednesday afternoon at 2 o'clock at Hanover and burial will be made in the Hanover cemetery.

HARDING DIRECTS  
DILIGENT PROBE  
OF WAR RELIEFTells Committee to Locate  
Where Agencies Have  
Failed to Serve.Colonel Dawes Presides at  
First Meeting of Prob-  
ers in Washington.

Washington, April 5.—President Harding today asked his special commission, headed by Charles G. Dawes, of Chicago, to make "diligent inquiry" of Government heads in an effort to find out just where the government agencies have been lacking in authority, neglect or failing in caring for disabled service men. He also asked that investigation be made of the abuses which have developed.

The president's request was in a form of a statement which was read at the first meeting of the commission by Mr. Dawes who called on the president today at the White House. The commission chairman announced that the president's wishes would be carried out to the letter and that the inquiry would not be directed into controversial or extended subjects.

The regulations and policies adopted at this time are likely to be in effect for a full half century to come. In order to deal justly with these men and carry out a permanent policy it is exceedingly important to start on a firm foundation," said the President's statement.

I have asked Brigadier General Sawyer to meet with your committee and make available to you such information as you may desire which he has gathered as the representative of the executive in investigating the relations of the several departments of government delaying with this problem. I do not imagine your committee will care to enter into a widely extended taking of testimony, but that you will be able to get the important heads and officials responsible for the service such information as you may require to pass judgment on the program adopted and make recommendations as to our future course."

B-O IS READY  
TO TALK AGAINAdvises Newark Committee  
That Conference on Sub-  
way Matter Anytime After  
Thursday—Pennsylvania  
Attitude Not Known.

Baltimore and Ohio railroad officials have notified the Chamber of Commerce through A. C. Clarke of their company that they will be ready for a general discussion of the subway situation any time after Thursday April 7.

The letter states the detailed estimates for the Newark grade separation work is so nearly completed that it was expected it would be sent to the executive offices in Baltimore the middle of this week. "I am not in a position to say just how long it will take our managers to reach a decision as to the immediate expenditure for this improvement," said Mr. Clarke, who continues "You are thoroughly familiar with the railroad situation as it exists at the present time and know what we are against in the matter of financing proposition of the greatest emergency."

Mr. Clarke expressed his ignorance as to what the Pennsylvania railroad has accomplished in the matter of preparing new data for the proposed subway.

MICHIGAN VOTERS  
APPROVE BONUSBallots Cast Indicate That  
Sentiment Is About Three  
to One in Favor of Pro-  
posal.

Detroit, Mich., April 5.—Michigan Michigan voters approved a soldier's bonus and gave Republican candidates for minor state offices the usual heavy majority in yesterday's election, reports from approximately one-fourth of the precincts of the state indicated early today. The Republican vote and that favoring the bonus was about three to one in the 700 precincts reporting.

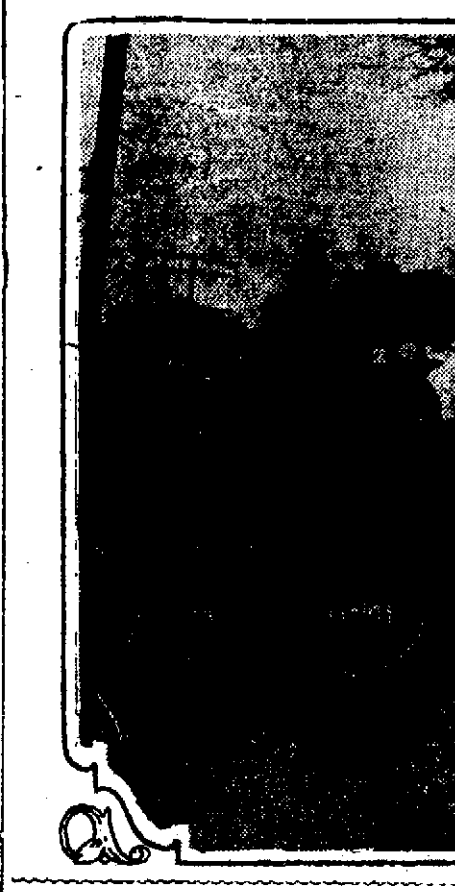

The traction problem was again before Detroit voters, the service-at-cost proposal, put forward by the privately owned system, received but 40 per cent of the vote in 200 of the 573 precincts, while a proposal by the city council that the municipal traction system be enlarged by purchase of eight lines now operated by private owners, received 66 per cent of the vote represented. Both issues required 60 per cent to carry.

ENGLAND TELLS US TO  
PRACTICE WHAT WE PREACH

London, April 5.—American contentions for equality of treatment for the citizens of all nations in mandated territory are being by the British government to be scarcely consistent with the attitude of the United States toward American oil interests in Mexico. The British view is expressed in a long reply to Secretary Colby's note last November 20, which was made public here today.

Cleveland—Jacob Aaron, 40, and Moses Weintraub, 60, were killed and Harry Feuer, 42, was probably fatally injured in an automobile accident here.

## REPAIR OF BUCKEYE LAKE ROAD SOUGHT

LITTLE HOPE FOR  
LAKE HIGHWAYCounty's State Aid Fund  
All Diverted to Improve  
Mount Vernon Road and  
Other Job Must Wait.

In a letter received by the Chamber of Commerce today from L. C. Harrick, state highway commissioner, no hope is held out for the improvement of the Buckeye Lake road.

Mr. Harrick, says his department has no funds to finance the improvement and further stated the Licking county commissioners had refused to cooperate.

The county commissioners say there are no funds in their treasury for the work. That the road to the lake has been made a market road for inter-county highway which makes it a state aid road. That the help the county receives from the state has already been apportioned to the Utica road, north of the city. Also that by making the road a state aid road it is impossible under the law to carry the road of the two mill levy for road to the purpose as it is only available for county road work.

CONGRESS WILL  
GET PEACE PLANHarding Not Bound to Act  
Hurriedly By Past Atti-  
tude on Peace Question.

Washington, April 5.—President Harding is not committed to any definite program with regard to a congressional declaration to declare the state of war with Germany at an end.

While the president was voted for the Knox resolution when he was a member of the senate and spoke favorably with regard to it in his address of acceptance, he is understood to feel that there is no occasion for precipitate action at this time.

The president's views with regard to the peace program are expected to be made known at the opening session of the new congress which the executive may address in person. Meantime, it is known that the president and his advisers are growing more and more convinced that there is no practical way to consider the Versailles covenant.

URGES SPECIAL FILMS  
FOR SCHOOL CHILDREN

Columbus, April 5.—Representatives of Ohio motion picture producers told members of the senate judiciary committee today that they were cooperating with the Parent Teachers association and school authorities in a movement to encourage parents to keep children from running in the movies every night.

Mrs. A. B. Nollies, Columbus, representing the Parent Teachers association and school authorities in a movement to encourage parents to keep children from running in the movies every night, said that the motion picture exhibitors should offer special films for children on Friday nights, Saturdays and holidays. She said harm was done to the children physically and mentally by going to the movies every night and that responsibility for keeping them away from the movies rested with the parents. The committee has not yet acted on the McCoy bill.

HEARS ALIENATION SUIT  
FOR \$50,000 DAMAGES

In common pleas court Judge C. H. Wood and a jury were engaged in the trial of the case of Cloyd Varner vs. John Ashcraft and others today. Ashcraft is charged with the alienation of Varner's property for damages in the sum of \$50,000.

The defendants are Mr. and Mrs. John Ashcraft, the father and mother of plaintiff's wife. Mr. Varner is represented in the case by Attorneys Fitzgerald, Miller and Black and Mr. and Mrs. Ashcraft by Attorneys Phil Smythe and Robbins Hunter.

Columbus—Joseph Garretson, managing editor of the Cincinnati Times Star, was named president of the Associated Press Editors of Ohio, and J. D. Dunningham, Associated Press correspondent at Columbus was elected secretary and G. W. C. Perry, of the Scioto Gazette, Chillicothe vice president.

Courtesy of Columbus Dispatch.

These pictures of the impossible condition of the road to Buckeye Lake were made a week ago Sunday and might well have been taken last Sunday by the motorists who attempted to reach the lake. The improvement of the road has been a problem confronting the Licking county commissioners, and both the Columbus and Newark Chamber of Commerce have been advocating its improvement.

COUNCIL AGREES TO RUSH WORK  
ON SUBWAY; MAY START LITIGATIONSouth Newark Residents Petition City Solons to Force  
Railroads to Eliminate Crossings According to Con-  
tract—One Man Street Cars Attacked in Ordinance.

In accordance with the distinct expression of opinion of citizens of the city council meeting last night, council passed legislation to facilitate the improvement of East Main street, the completion of the subway, and the authorization of \$128,000 worth of bonds to finance the streets paved recently with the cooperation of the railroads.

The meeting was a long one, lasting till 10:15, with many of the citizens of East and South Newark and Texas speaking in behalf of their projects.

South Newark citizens were out in such a union station and additional tracks which he assumed the city and force and discussion was started when Clerk Hamilton read a communication from the South Newark Improvement association, a resolution of that body asking council to authorize City Solicitor Ashcraft to employ additional counsel in the handling of the subway matter with the railroads with the request for early action.

After the communication was referred to Ashcraft, William M. Morgan spoke shortly expressing the desires of the South Newark people to have the subway completed at the earliest possible moment.

City Solicitor Ashcraft asked Mr. Morgan if the people wanted immediate legal action or wanted the subway built with the cooperation of the railroads. In reply Mr. Morgan stated that his personal choice was cooperation but that if the railroads showed any more signs of needless delay then immediate legal action. Mr. Ashcraft said he agreed with Mr. Morgan.

Harry Miller of the C. W. Miller company disagreed with any program of further delay. He declared that the project five years more and demanded immediate action in the courts. City Engineer C. H. Weiss stated that the plans for the subway were not lost, that they had been duly signed and so set to rest the two rumors which have been circulated in the south end to the effect that the plans were lost and that they had not been signed in the first place. Mr. Weiss stated that the contract was binding on the company and that the city was liable for its share of the cost under the contract. He further stated that any further improvements, such as a union station and additional tracks which he assumed the city and force and discussion was started when Clerk Hamilton read a communication from the South Newark Improvement association, a resolution of that body asking council to authorize City Solicitor Ashcraft to employ additional counsel in the handling of the subway matter with the railroads with the request for early action.

CHARLES ENROUTE  
TO SWITZERLAND  
ON SPECIAL TRAINAustria Provides Means of  
Travel and Gives Him  
Special Escort.Departure Is Announced By  
Hungarian Premier to  
National Assembly.

Vienna, April 5.—It was reported here shortly before noon today that ex-emperor Charles has left his refuge at Steinamanger on his way out of Hungary. Official confirmation of the report however was not obtainable.

A special train with the Austrian official escort for the ex-emperor was in waiting at the Hungarian border this morning at the request of the Budapest government. The route to be taken by Charles through Austria is understood to be by way of Graetz, Innsbruck and Feldkirch to Buchs.

Budapest, April 5.—Former emperor Charles departed from Steinamanger in West Hungary near the Austrian border at 10:30 o'clock this morning on his way out of Hungary.

Premier Teleky made this announcement in the national assembly this afternoon.

HOUSE LEADS IN  
Y CHAMPIONSHIPSScores More Than Ten  
Points In Three Events  
of Allround Title Con-  
tests of Y. M. C. A. Gym.

The first of the all-around championships at the Y. M. C. A. were run off last night at the Y. M. C. A. gymnasium in the three events: high jump shot put, and potato race.

Hunter of the Helsey company, took the high jump with 59 inches. Goodwin of the American Bottle second, 56 inches. Hunter of the Helsey company third and House of Helseys fourth.

In the shot put using a 16-pound shot, House topped first place with a lift of 29 feet 7 inches. Cunningham of the high school second with 28-10; Olson of Helseys, third with 27-7; and Hunter fourth with 27-0.

The potato race was the exciting event of the evening. House by running the event in 21.45 seconds equals the record and captures first place. Olson landed second place with 23 feet; Hunter third with 22 feet and Goodwin fourth with 23.45. Olson and Hunter were forced to run the tie off resulting in a win for Olson.

In total points toward the all-around championship in class A House has 19-12 points, Hunter 6-12, Olson 6-12, Goodwin 3-12, Cunningham 3 and McElroy 1.

Class A gymnastics will take place Wednesday night at the Y. M. C. A. at 7:30 p. m.

Class C athletics for boys between the ages of 14-12 and 11-12 takes place tonight at 7:30 p. m. This group will include the younger high school boys and younger employed boys as well as a few of the grade school boys.

The medals and other awards for these events are the same for all classes whether A, B, or C.

POLISH TRAINS NOW RUN  
TO RUMANIAN POINTS

Warsaw, April 5.—Trains made up of Polish rolling stock and manned by Polish crews began making regular trips into Roumania recently to bring grain to the new republic which suffered terribly in crop losses last year due to the Bolshevik offensive. Roumania was unable to deliver grain to Poland because of lack of usable rolling stock. This grain is milled into flour for the population of Galicia. Northern Poland including Warsaw receives its supply of flour chiefly from America.

Two trains a day, transporting about 25,000 tons of grain a month, are now making regular trips from Central Roumania.

Experts have reported excellent prospects for Poland's crops next harvest and it is expected that with a summer of peace the country will raise enough grain to supply all needs.

THROWN FROM BUGGY;  
WOMAN'S LEG BROKEN

Mrs. O. A. Sullivan was injured Monday night when she was thrown from a buggy on the temporary road south of Fleek avenue. Mr. and Mrs. Sullivan had spent the evening with friends in "Texas" and were returning home and were driving a horse and buggy.

It is said that they drove off the edge of the road and the buggy turned over. Mrs. Sullivan was thrown out and a dislocated broken leg. Two bones were broken above the ankle and one of her fingers also broken. Mrs. Sullivan was taken to her home in South Second street.

No agreement has been reached among the tinner, electricians, plumbers and the master men of the trade. The men have been off duty since April 1, and several meetings were held last night, but no decision was reached.

Madison, Wis.—Childhood home of Ella Wheeler Wilcox, near here, destroyed by fire.

## THE COURTS

### Case is Submitted.

In the case of Hartman vs. Cochran, an action to quiet title to real estate, counsel submitted the case to the court upon a motion for a default judgment on the face of the pleadings.

### Sale Confirmed.

Wm. O'Donnell, guardian, etc. vs. Sarah S. Robinson, an action brought to secure an order to sell an entitled estate. As a sale reported made the court confirmed the deed and ordered distribution of the property.

### Motions Overruled.

The court overruled all motions filed for new trials.

### Discusses Lake Sewer.

The county commissioners and County Engineer Clyde Irwin went to Columbus today on business for the county. They will see about the proposed sewer system at Buckeye Lake and about county roads at the State Highway department.

### Marriage Licenses.

Ralph A. Cross, fireman, and Miss Lois G. Marple, Rev. L. C. Sparks named to officiate.

## Milady's Boudoir

### Care For Your Hair.

There are many really young women who have dull and lifeless looking hair. Often it is thin and scraggly and then it needs toning up. Strange as it may seem the physical condition of the body is often responsible for this kind of hair. Loss of sleep, mental worry and late hours will cause the hair to fall out and become grey and thin. Ill health and disorders affecting the circulation and nerves are also frequently causes of poor hair.

Persons of a nervous and debilitated temperament usually have less abundant and less glossy hair than those of a more robust and sanguine disposition. A daily massage of the scalp is a good thing. Start with the tips of the fingers on the scalp near the forehead and move them gently back towards the back of the head. The movement should be a rotary one. This helps to keep the scalp free from dust and dirt and also keeps it from becoming stiff and close to the head.

It is a great mistake to wash one's hair too often. Such a practice tends to make it both dry and brittle. However, it must be remembered that cleanliness goes far towards keeping the hair and scalp in a healthful state. To use cold water if the intention of

strengthening and cleansing the hair is a mistake, for there is scarcely anything more likely to cause it to become thin, dull and grey than the frequent use of cold water.

When washing the hair use a prepping the hair it should be carefully and shampoo it once a month. After washing the hair it should be carefully and thoroughly dried with a rough towel until it is dry. Don't use heat if you can help it. Of course the sun is all right to dry one's hair and nothing is so good for the hair as a sun bath.

## Everyday Etiquette

"Is it right to use abbreviations in writing a letter, except, of course, Mr. and Mrs.?" asked Edith.

"Write out all words in full. An abbreviation may seem perfectly obvious to you but be unintelligible to other people," said her friend.

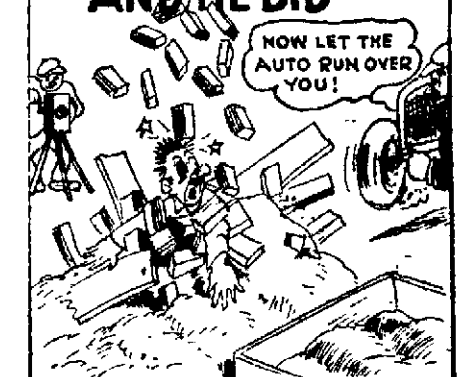

Ellnor Glyn, the celebrated novelist, is busy now taking to writing photoplays.

You never can tell. Many a girl's ideal degenerates into a mere subsand.

## SOCIAL AFFAIRS

The Alpha Sewing circle will meet at the home of Mrs. Stanley Stutler in Maple avenue tomorrow afternoon.

Mr. and Mrs. D. W. Jones, 1775 Franklin Park S., Columbus announce the marriage of their daughter Ruth to Mr. Donald B. Barricklow, Saturday, April 2, at Princeton, W. Va. The young people were attended by Mr. and Mrs. Glen Scott Hatheway, Cleveland, brother-in-law and sister of the bride. Mr. and Mrs. Barricklow are now on a wedding trip South. The bride formerly attended Ohio State and is a member of Delta Gamma sorority. Mr. Barricklow was graduated from Ohio State, where in 1917 he was captain of the football team. He also played tackle for two years. He is a member of Sigma Alpha Epsilon and well known to Newark people. Since leaving college he has been identified with one of the big West Virginia coal companies, with headquarters in Avondale, W. Va.

The Loyal Women's Bible class of Central church, will hold its regular monthly business meeting and social at the church Tuesday evening at 7:30 o'clock.

The first publication of the banns of Miss Anna Christ and Edward Lee Collopy was made Sunday morning at the St. Nicholas Catholic church at Zanesville. The bride elect is a daughter of Mr. and Mrs. William Christ and is an employee of the Central Union Telephone company. Mr. Collopy resides at the Mattingly settlement. The wedding will be an event of April.

Mrs. Edward Weisgerber will entertain the members of the G. A. B. club at her home in West Main street, Wednesday evening.

The members of the South End division of St. Paul's Lutheran church will meet at the home of Mrs. E. H. Reynolds in 59 Prospect street, Wednesday evening.

The date for the "Old Maid's Association" to be given by the Amoma class of the First Baptist church has been changed to Monday, April 11. Those holding tickets are asked to note the change in date.

The members of the Dorcas Bible class of the Central Church of Christ will hold the regular monthly business meeting and social at the home of Mrs. Robert M. Timmen in 112 East Channel street, Thursday afternoon at 2 o'clock.

The Colonial Sewing Circle will meet at the home of Mrs. T. F. Mulquin in 185 North Gay street, Wednesday afternoon at 2 o'clock.

The annual dinner dance of St. Luke's Commandery, Knights Templar, will be given this evening at 6:30 o'clock in the Masonic Temple. The evening follow of age.

ing the banquet will be spent in dancing.

The L. C. B. A. will hold its regular meeting at 28 West Main street tonight. Election of officers will take place.

Sunday at high noon the marriage of Miss Gladys Lindeman to Mr. Ray Mitchell of Granville was solemnized by Rev. Emmett Caldwell at the home of the bride's parents Mr. and Mrs. Wm. Lindeman of 126 North Williams street, the ring ceremony being used.

The bride was attired in a gown of pussy willow satin with georgette trimmings and wore a corsage of pink and white sweet peas.

The bride and bridegroom were attended by Mr. Howard Lindeman and Miss Clara Emory. Mrs. George Lemon aunt of the bride played the wedding march. After the ceremony the following guests were served a wedding dinner in a beautifully decorated room the color scheme of pink and white was carried out. The guests present were: Mr. and Mrs. Wm. Lindeman, Mrs. Ida Mitchell of Granville, Rev. Emmett Caldwell, Mr. Howard Lindeman, Miss Emory and Mrs. George Lemon of Portsmouth, Mrs. Mary McDonald and baby Blanche of South Fifth street city, Mr. and Mrs. James Alexander of Zanesville, Mrs. Louis Moll of Chillicothe, Miss Mary Alexander of Granville, Mrs. Jacob Ruth of South Webster, Mr. Curtis Mitchell of Granville and Orin Lindeman.

The bride and bridegroom will be at their newly furnished home at 133 North Williams street after April 10th.

Announcement is made of the marriage of Miss Lois Grace Marple, daughter of Mr. and Mrs. A. H. Marple of North Fourth street and Mr. Ralph A. Cross, the wedding taking place at the home of Dr. L. C. Sparks in Columbus at 11:30 o'clock this morning. The bridegroom is the son of Mr. and Mrs. D. Cross of Elmwood avenue.

The bride wore a suit of dark blue tulle and carried roses. She was attended by Miss Grace Earl of Washington, C. H. who wore a suit of gray and carried sweet peas. Mr. Arthur Marple, brother of the bride, acted as best man.

After a wedding breakfast at the Deshler, Mr. and Mrs. Cross left for a trip to Palm Beach, Fla. Upon their return they will be at home in 100 North Fourth street.

More than two-thirds of all the women employed in gainful occupations in the United States are under 35 years of age.

## OBITUARY

Mrs. Alice Bennett, aged 60 years, wife of T. L. Bennett, of Frazzysburg died Monday night at the City Hospital. Mrs. Bennett had been a patient there for the past three weeks and death was due to a complication of ailments. Surviving are her husband and one daughter, Mrs. Genevieve McCann of Frazzysburg. The body was taken in charge by Brice Baughman and after preparation at the Criss establishment was taken to the home in Frazzysburg. Funeral arrangements have not been completed.

Charles T. Toland. Funeral services for Charles Thomas Toland will be held Wednesday afternoon at 2 o'clock in the home of the grandparents, Mr. and Mrs. Charles Harsch, 545 Serocco avenue and burial will be made in Cedar Hill cemetery.

## Our Boys and Girls

Mother should be very persistent in teaching their children to care for their teeth. The first or temporary, teeth require the same careful attention as the permanent ones. When the teeth are frail in childhood it is evident that the little one is not getting the proper diet and the substitution of gluten and whole wheat breads for white breads, syrups and sweets is most imperative. Syrup of lactophosphate of lime is helpful at such times as soft crumbly teeth give evidence that more bone

making materially is imperative. Glutten flours should be more generally used instead of fine white flours in the rearing of children, and as well, for the food on adults.

If the permanent teeth come through irregularly, overlapping or twisted, they should be straightened without delay. If the gums are overworked it is better to remove a tooth since the conditions favor decay. In these days it is even possible to reset every tooth in the jaw and teeth knocked out by accident may be replaced with perfect success.

Over fifty years ago a young physician practiced widely in Pennsylvania and became famous for his uniform success in the curing of disease. This was Dr. R. V. Pierce who afterwards established himself in Buffalo, N. Y., and placed his "Golden Medical Discovery," in the drug stores of the United States. When you feel run-down, out of sorts, blue and despondent try the evergreen influence of Golden Medical Discovery in tablet or liquid form. Nearly a million bottles were sold last year.

Alhambra—"The Soul of Youth."  
Gon—Grace Valentine in "The Tongue of Men."  
Lyric—Ray's Sunshine Girls.

**ATLANTA THINKS WELL OF WHITE MINSTRELS**  
An Atlanta, Ga., review has the following to say of Lassies White's minstrels which come to the Auditorium Friday:

Lassies White, when he stepped on the road with the company of his which opened its engagement at the Atlanta theater last night with comical songs and musical fizzes—Lassies, we say, worked his egg-shaped head.

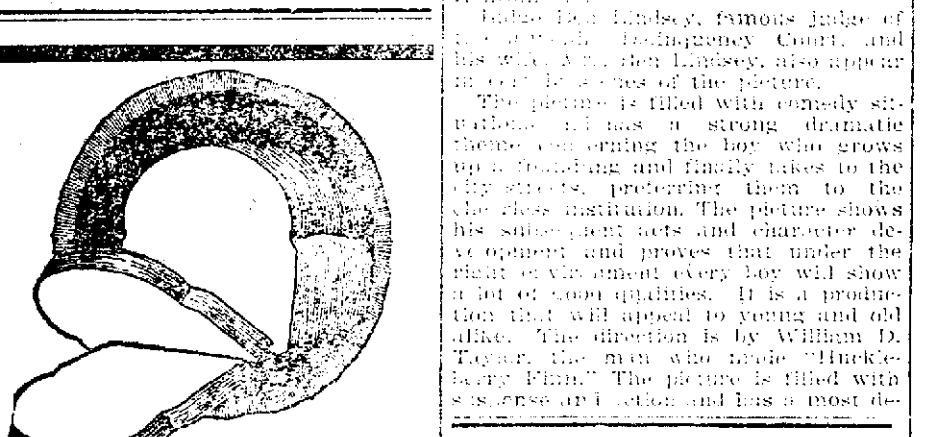

For since Lassies has vented with his own company, and since Lassies has undeniably victed, Atlanta is more than willing to agree that his minstrels are of a high caliber, with a finish that would never lead the observer and listener to guess that they were making their first joint ensemble, led by one who only last year was starting in another man's crew of black face artists.

SCENE FROM "TURN TO THE RIGHT"

The worthy reputation which Lassies has earned during his years with films is enough to guarantee enjoyment of a performance in which he appears, and the high class of minstrel, of which he has succeeded in gathering about him was a genuine surprise to those who went to the Atlanta Thursday night looking for very much Lassies and not much to go with it, too few waiters for the syrup.

From the standpoint of harmony, which is quite the most noticeable

**BREAD!**  
We could not get along without it. It's the old "Standard."  
Why? Because it is all substance and nourishment.  
Because it satisfies when other foods do not.  
Our Table Pride Bread has a real flavor and a good substantial slice. Call up your grocer. He has Table Pride Bread.  
Table Pride Bread is your best bread—Eat more of it.

ered factor in minstrels. Lassies White's minstrels are absolutely as good, and more than likely just a bit better than anything in the line which have arranged themselves about the stage of the Atlanta theater in some minutes. Several singers of better than ordinary ability accompany the other Lassies. The creative dances are a bit more popular than usual, and on the whole, Lassies White presents a better minstrel show than is ordinarily staged.

Chief among those who are an immense help to White is one Slim Verment, who should be at least as famous as his commonwealth namesake. His dancing was the main drag with his audience, it being of a long-legged, simple type with certain variations that never failed to please. Combined with his ability to handle his egg face and lyric fizzes is a natural vent of comedy, which lends as nicely as the rest of him.

**ROY LEE SHOWN**

**IN TAYLOR FILM**  
"The Soul of Youth," the new speedily produced by the Polaris, is a beautiful story of boyhood life different from any picture which has been produced and proving that real drama exists in the lives of the men of tomorrow as well as

DOROTHY DALTON and WALTER NIELAN in a scene from the THOMAS H. INCE production "THE DARK MIRROR" A PARAMOUNT ARTCRAFT PICTURE

lightful end. "The Soul of Youth" from the time the curtain rises until it comes to the Alhambra today for a three-day run.

**ESPECIALLY CLEVER MEN WITH LASSES WHITE SHOW**  
Among the chief features in the realm of minstrelsy there is none more important than "Lassies" White, who for the first time brings his own minstrels to the Auditorium Friday night.

The interest of the night is bound to surround this event will be heightened by the fact that White brings with him a band of unusually clever minstrels. In short, a brand new organization selected from the best talent in the field. At the same time the realization that White himself is a great actor and dancer among minstrel men in this country today, is the vital and arresting factor. In no thoroughly adequate and impressive way in which the minstrel "Lassies" have the place of George Henry Roy Evans during his illness and succeeded in his position after Evans' death is the evidence of the unique talent of this blackface artist. Not only was he an immediate hit in the Henry Roy minstrels but he was featured with Ned O'Brien's Minstrels and for four seasons was one of the most important figures in Uncle Al's Public organization. His comedy is of the rare laugh provoking variety; his comic characterizations are vivid and novel; his personality is magnetic and captivating. His performance is everywhere pronounced "The first of the season." Starts on side today.

**THIRST FOR REVENGE IN "THE DAUGHTER PAYS"**  
Hated, nursed, grows into a sorry thing, but in the case of "The Daughter Pays," hatred grows into a happy thing. Found him the only happiness he had ever known, and a great and wonderful love. This happens in "The Daughter Pays," a Schenck Picture starring pretty Elaine Hammerstein. Coming to the Grand theater Thursday and Friday.

**GOLD PAID FOR BY SOULS IN "THE MONEY CHANGERS"**  
"The Money Changers," the all-star Benjamin D. Hampton-Pache feature at the Grand theater now is not a crook play, nor a drama of high finance, nor a Chinese play, but it is a study of the human mind in a powerful story of New York that takes in all the glittering splendor of the richest city's highest society and the central mystery, drug laden atmosphere of the Oriental underworld.

Written for the screen by Mr. Hampton and Updell, "The Money Changers" is based on the novel of Mr. S. S. Van Dine's famous novel "The Money Changers," the story revolves about a man ready for money. A respected member of society and president of a big drug company, it

LARRY SEMON IN "THE SPORTSMAN"

"Turn to the Right" of which said him is the chief ingredient will be shown here. Jan has been known to arrive falling appetite and faded cheeks; here will experience a wonderful revival under the oft treatment of this widely-praised mixture of love, laughter and heart-throbs. It is so different and yet so reminiscent of road plays like "Checkers" and "The Fortune Hunter" that it cannot help attracting capacity audiences.

The simple and honest virtues that made "The Music Master" a great success are prominent in "Turn to the Right." There are tears and laughter in the same breath, and frequently a fighting in the neighborhood of the Adams' apple.

The original New York City production will be seen here and the advance sale will open on Wednesday.

**"BROADWAY BREVITIES" IN A BIG TOWN ATTRACTION**  
Coming direct from the New York Winter Garden "Broadway Brevities" will stop off at the Auditorium for one night only, Wednesday, April 13th.

"Broadway Brevities" and raises all the elements which have gone to make the Winter Garden a world famous institution. It has many beautiful girls, in bewildering and gorgeous costumes, it has a succession of beautiful and effective scenes and many funny and relieving songs. For the advancement and interpretation of it, there has been engaged a company of well-known and popular players, each contributing a distinctive share to the entertainment. In all the shows which have gained wide fame from the Winter Garden there has been a greater amount of comedy and ludicrous situations than "Broadway Brevities." The audience finds new and novel entertainment

## SCHOOLS MAKE GOOD RECORD

Superintendent Barnes Is Pleased With Attendance and Punctuality During Month of March.

"The report of Newark schools for the month of March is better than that for last year in every particular," said Superintendent O. J. Barnes today. "The Newark schools have surely had an excellent record during all of this year."

"The high school is to be congratulated on winning the debates from Mt. Vernon and Zanesville. Great credit is due the debaters and particularly their coach, Miss Janet Jones. Newark now takes the lead in the number of victories during the 12 years of the existence of the Triangular Debating League. "Friday, April 8, is designated by the Governor as Arbor Day and will be observed in all of the schools of the city. A movement is proposed to have a Clean-Up Day for the city and the schools will be glad to co-operate to make this day a success."

Figures for the month follow:

Building	Enrollment	Perfect Attendance	Per cent	Thousandths
Central	460	240	94	5
Hartside	432	168	93	1
Woodside	420	213	93	1

### GIFT CORN MOVING.

Ohio gift corn is just beginning to move. Cars have been recently requested as follows: Clark and Greene counties each six cars; Fulton county five cars; Champaign county three cars; Franklin county two cars; Delaware county one car each; Carroll county one of the smallest counties has collected \$1000 in cash. That is a good report as being received from other counties in the state. Hartford township in this county reports at least 200 bushels. Work is progressing in the other townships. Those desiring to donate have been asked to get in touch with the farm bureau directors as to time and place of loading.

### Submitted on Denumer.

The cases of Baker vs. Barber were submitted to the court upon denumer and motion in common pleas court yesterday. The suits are brought to re-

cover for services alleged to have been rendered.

**Amended Petition Filed.**  
T. S. Hogan filed an amended petition in common pleas court yesterday in the case of Timothy S. Hogan vs. Charles J. Klotz. He seeks to recover \$264.40 for services rendered in a divorce case he handled for Mr. Klotz against Jane Klotz.

## Two Feet of Unhappiness

Not a Movie Reel But Your Feet in the Wrong Shoe. Foot Follies Versus "A 5-Room Apartment With a Room for Every Toe."

PUTTING your foot down is symbolic in most households with family friction. Yet have you ever thought of the importance of "putting your foot down" on the "ard, ard highway as the old English ballad has it, in proper, hygienically clad fashion? For it can mean all the difference in health and even beauty. Often we have been solemnly warned that red noses, backache and eye strain that mean fatigue and wrinkles, are caused by ill-fitting shoes. Now along comes a New York physician who announces that he can make any woman 100% beautiful—if she will walk 100 miles a month!

And how, pray, can you join his aspiring recruits unless your feet are properly shod and comfy?

Foot follies in the way of high heels and tight, unnaturally pointed slippers are declared to be about the most prematurely aging process that any woman undergoes. Every woman knows the torture "two feet of unhappiness" can give her. In contrast take "a five room apartment with a room for every toe." This is the terse description of the latest correctly designed Spring shoe. Instead of cramping them out of shape, this shoe allows each little toe to go to market or anywhere else their fair owner goes, with plenty of room to grip the ground or frisk about as Nature intended.

According to the Health Education Department of the National Board, Y. W. C. A., who have their ear to the ground concerning the latest palpitations and tendencies among girls the country over, there never has been such widespread interest in the right foot wear. So great is the demand for knowledge on the best shoe styles that their lecturers are kept busy traveling North, West, and South from New York, their trunks full of the new Spring shoes to demonstrate.

"Foot follies began with babies before they creep," says Miss Harriet Wilde the Y. W. C. A. foot expert. "Every normal child is born with feet-shaped as Nature intended. Yet with our present practice of putting it into the wrong shoe, how long does it last? Even baby's stockings are often at fault."

One test of perfect feet is the toe and pencil test. Can you lift a pencil from the ground with your toes? Lay a pencil on the floor and try to pick it up by pressing it with the under side of the toes against the ball of the

Testing the inner border of the feet in Social Education Department of the National Board, Y. W. C. A.

foot. If you can do it, you can walk properly. If you can't the sooner you get into "a five room apartment" shoe, the better as a preventive against future foot ills. "Foot posture is the most important thing in the world," says another Y. W. C. A. expert. "Grace as well as health depend upon it. Correct posture means that every organ is where it should be and that the owner has poise and control of nerves. It means that a girl can be more attractive and do better work with her mind freed from aching discomfort."

Can WE criticise CHINA?

### Readers' Viewpoint

#### CHINA RELIEF FUND.

Editor of the Advocate—Please let me thank you very warmly for the recent editorials on the China Famine Fund in the Newark Advocate. I want you to know that we welcome this sort of assistance, as the very best help

that we can receive. The wide spread evidence of interest and co-operation is very gratifying and you should know that we appreciate the high value of your editorial comment. Yours very truly,

Thomas W. Lamont, Chairman.

New York City.

## GOOD CHEER AT WHITE HOUSE

President Harding's Reported Bill of Fare Certainly Sparks of Democratic Simplicity.

It is said that the Harding White House bill of fare will include chicken pie, as the first lady of the land knows how to make it—and waffles, browned to a turn, by the efficient old-fashioned colored cook of the Harding household.

This snuggles of democratic simplicity and "homey" housekeeping of the good old days.

The state breakfast and the diplomatic dinner are necessarily more pretentious, and "old-time eating," served in the old-time way, if not altogether discontinued, is so disguised as to make the satisfying plenty of the home table seem like a far-off dream.

But, allowing for the proprieties of state banquets and the like, there is never a distinguished guest of them all but that has come up from plain "home raising," and still remembers the dishes of old days as more to thank God for than all the French refinements of later repasts.

The "homeliness" and heartiness of the former linger with them forever in much the same way as they did with our old friend of the "Uncle Remus" stories when, after a certain notable banquet, and he seldom attended such, he remarked: "Now I'm going home to eat!"—Atlanta Constitution.

## TENANT FINDS BURIED MONEY

And Now a Court Must Pick the Owner of Treasure Discovered Hidden in Jars.

Rumors of the finding of a great treasure in the old Holland house here have been confirmed by the filing of suit in the Fayette county circuit court by the administrators of the Holland estate against a dozen defendants alleged to have shared in the division of the treasure, which amounted to \$21,000, says a dispatch from Nuttallburg, W. Va., to the Pittsburgh Dispatch. Attachments were served on 50 banks in the surrounding section, where the money is believed to have been deposited.

The story of the treasure reads like romance. In the sixties William Holland, veteran of the Crimean war, came to this country from England and settled in the Pennsylvania coal fields. In 1872 he came to Kenney's creek and began the development of a mine. He built a home here in 1885, where he resided until his death in 1918.

He was an eccentric character, and none of his family knew of his habit of hiding money. He died suddenly of heart failure. After Holland's death the home passed into the hands of William Nelson, superintendent of the coal company, who began repairs and reconstruction. The gold was found in different jars at different times.

### Shuts Out Sound.

Persons who wish to concentrate their attention upon studies, business matters or what not, often find themselves most annoyingly distracted by noises of one kind or another. Street traffic may be disturbing; the crying of a baby may irritate, or perhaps the yowling of cats on a back fence or the persistent tooting of a cornet in the neighborhood may induce exasperation.

To obviate this sort of trouble, Gabriel Janregui of Bridgeport, Conn., has devised what he calls the "ear silencer."

It is a frame of light construction which may be fixed upon the head in such a way that two screws carrying soft rubber plugs on their ends are inserted into the ears.

When this adjustment has been made exactly right the two screws that carry the rubber plugs enter the wearer's ears horizontally and have only to be tightened sufficiently in order to fit snugly and exclude all troublesome sounds.

### Opossum a Pest in Australia.

New Zealand has a native species of opossum which wears a very beautiful fur. It is not at all like the opossum that we know in this country.

Many years ago it was introduced into Australia, and, finding there none of the natural enemies that preyed upon it in its own land, it has since increased in numbers until it has become a serious pest. It is a robber of fruit trees.

However, the value of the animal for its fur is so great as to outweigh the damage it does in the fruit-growing sections, and in view of this fact, the Australians are encouraging the increase of opossums in forest districts. Their skins are becoming a considerable item of export, and already many of them are made up into fashionable garments for women in the United States.—Philadelphia Ledger.

### First American Train Robbery.

Train robbery, a pastime which was for some years very popular in the West, was inaugurated 48 years ago at Verdo, Nevada, when the Overland express was held up and despoiled of about \$50,000. This robbery marked a new departure in the field of crime, for previously only stage coaches and travelers had fallen prey to holdup men. When western outlaws are discussed, the name of Jesse James is usually the first brought up, but he was not the pioneer train robber. That dubious distinction belongs to one Buck Taylor, who, with four companions, pulled off the train holdup which was the first of a long string of similar crimes.

More than a dozen women were chosen to various public offices in the recent municipal elections in Maine.

# Current Business Conditions

By GEORGE E. ROBERTS

Vice-President, The National City Bank of New York

**S**YMPOMS of improvement in the business situations have become apparent with the resumption of outdoor operations, but it cannot be said that these indications are sufficiently pronounced to justify sanguine predictions.

It is gratifying to note that there is not the amount of distress that might have been expected from so much unemployment, nor the number of business failures which might be expected following so severe a depreciation of values. The most encouraging circumstance is the fact that the readjustment of wages and prices which is necessary to a general revival of industry is steadily progressing, and without a serious amount of friction.

The comparative figures given in the table reproduced above do not show a pleasing state of affairs, but they do show what everybody knows—that we are passing through a period of depression, and when we take into account the state of business over the world, and the great and heavy fall in the prices of our staple products, there is reason for congratulation that conditions are no worse.

Retail trade continues surprisingly good in the cities, and wholesale distribution is very fair, considering the low prices of farm products and the amount of unemployment reported. Payments through banks reporting to the Federal Reserve Board and passing through the Clearing Houses are running 20 to 25 per cent lower than a year ago, which is not so great a decrease as might be expected in view of the decline of prices.

One of the notable incidents of recent weeks bearing on the business situation was the agreement between the meat-packers and their employees. The workers accepted a moderate reduction of wages, which had increased approximately 100 per cent during the war, as had the prices of live stock and packing-house products.

The question of wages paid to packing-house workers is more than one between the workmen and their employers. The packing-house workmen are middlemen between the farmers and the consumers; moreover, they are consumers themselves, not only of meats but of the products of other industries. The money in which their

The following table gives an idea of present activity in certain essential lines of business, as compared with a year ago:

	1920	1921	Per cent. decline
R. R. cars loaded (last week in Feb.)	783,295	658,222	16
Bales raw cotton consumed (Feb.)	515,599	385,563	25
Tons bituminous coal produced (week ending Mar. 12)	10,277,000	6,891,000	34
Tons pig iron produced (Feb.)	2,978,879	1,937,000	36
Tons bee hive coke produced (Jan. 1 to Mar. 15)	4,527,000	2,257,000	50
U. S. exports (Feb.)	\$645,145,225	\$489,310,942	24
U. S. imports (Feb.)	\$467,402,320	\$214,525,137	54
Liabilities involved in business failures (Jan. and Feb.)	\$21,462,271	\$138,334,990	550 (increase)

wages are paid is simply a convenient medium by which their services are measured against the services of the farmer in producing food and the workers in all the industries producing goods which they consume. Their real pay comes in the goods which their wages buy, and in that sense their pay has been increasing rapidly in recent months, and is greater after these reductions than it was at any time last year. Their pay is larger in proportion to value of the products they handle than it ever was before.

A fair readjustment of wages in the packing industry means help toward the general readjustment which must be accomplished before there will be employment for everybody again.

It is a not uncommon remark that employers are taking advantage of the state of depression and unemployment to force wage reductions. This is an ill-advised comment, calculated to cause bad feeling. It indicates a want of understanding of the actual requirements of the situation. The fact is that depression and unemployment exist because the industrial situation is out of balance, and there is no remedy except by such readjustment of wages and prices as will restore the balance and enable the various industries to

exchange products on a fair basis. It is impossible, when one-half the people of the country have lost approximately one-half their purchasing power, for the other half of the people to go on without taking note of it. The depreciation of money which resulted from the war was not a natural or permanent development. Nothing of the kind has ever happened without a readjustment afterward, and it is always the case that the sooner that adjustment is accomplished, so that normal relations are restored between the industries, the better for everybody.

It is of no advantage to the workers in any industry to have costs maintained upon a level which prevents the sale of their products. Somebody must have the sagacity to attempt a restoration of the conditions under which an exchange of products is possible. The compensation of workers in the various branches of industry—must be brought back into equilibrium. Whether it will take a long time or only a short time depends upon the rapidly with which the public comprehends the situation, and remarks of the kind referred to do not promote an understanding

## Women of Middle Age

**T**HE critical stage of a woman's life usually comes between the years of 45 and 55, and is often beset with annoying symptoms such as nervousness irritability, melancholia, heat flashes which produce headache and dizziness, and a sense of suffocation. Guard your health carefully, for if this period be passed over safely, many years of perfect health may be enjoyed.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women through this crisis. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. It is prepared from medicinal roots and herbs, and contains no harmful drugs or narcotics. Its value is proven by many such letters as these:

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During Change of Life I was in bed for 18 months and had good care, but did not improve. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. That was five years ago, and now when I feel run down and nervous I take the Compound and it always does me good. I wish all women would try it during Change of Life, for I know it will do them good."—Mrs. A. KELLER, Afton, Tenn.

Thomas, Okla.—"I first used Lydia E. Pinkham's Vegetable Compound in my girlhood days, by the advice of a friend. At the age of 47 I was troubled with dizziness, hot flashes, and became very weak so that I was unable to do any work. I took Lydia E. Pinkham's Vegetable Compound with the result that I felt better and stronger than I have for years. I have also given it to my three daughters, and always with good results. The Vegetable Compound is certainly grand for the ills of women."—Mrs. J. G. SWARTY, Route B, Thomas, Okla.

Letters like the above do influence women to try

AN EASY WAY FOR  
THIN PEOPLE TO PUT ON  
FLESH AND GAIN WEIGHT

Strong, Straightforward Advice to Thin, Underdeveloped Men and Women

If you are thin, scrawny and underdeveloped, if your face is peaked and your cheeks and neck exhibit unsightly hollows, it's almost certain that your nervous system is at the bottom of the trouble. You can eat three, yes four, substantial, fat producing meals a day but as long as your stomach has an insufficient supply of nerve force this food you eat will pass out of the body with little if any benefit.

In order to assimilate properly the nourishing food you eat and convert it into healthy tissue and fat the nerves that control the process of digestion and assimilation must be put in first-class shape and until that is done you might just as well quit trying to put on flesh. Your system is starving for something that will turn the food you eat into healthy stay there flesh and it can only be done in one way—by correcting faulty nervous digestion.

Thin, nervous run-down people, however, with impoverished blood and half-starved looks are lusting with delight a quick and certain maker of solid flesh called EVANS' TRIPLE PHOSPHATES that is un-patched and repairing faulty digestion and correcting nervous digestive troubles. In fact the makers of Evans' Triple Phosphates guarantee that one month's treatment will increase your weight by several pounds and within ten days make you feel like a new man, full of ambition, vigor and a desire to accomplish things. T. J. Evans, Evans' Arcade Drug Store and leading druggists everywhere have agreed to supply Evans' Triple Phosphates and guarantee it to do just what is claimed for it or money refunded. Caution: While Evans' Triple Phosphates accomplished wonders in nervous digestive troubles and as a general nerve tonic, it should not be taken by anyone who objects to a few additional pounds of solid stay-there flesh.

ECZEMA RELIEF

Free Sample Sent on Request

The other day we received a letter from a prominent woman physician in Santa Barbara, Cal., asking us to send at once a large jar of Hydrosol Ointment, saying "two years ago while in Cincinnati I saw the Hydrosol Ointment used for Eczema with wonderful result in a short time, and I am unable to get it here in Los Angeles."

Physicians and hospitals in and around Cincinnati use it in serious cases and in large quantities. The emergency equipment of the Cincinnati public schools all have Hydrosol.

Hydrosol Ointment stops the horrible itching of Eczema almost immediately after application, and continued use allays the inflammation and the rash disappears. It is wonderful, too, for healing old sores and ulcers and any skin disease that itches or burns. Pimples often vanish over night.

Hydrosol is sold and recommended by T. J. Evans, W. A. Erman Arcade Store, T. J. Evans, Mykrantz Drug Store and most other druggists in this city at 25 and 50c. Write today for our free booklet on skin diseases and their treatment and a sample of Hydrosol to show what it may do in your own case. Address: 4215 Hydrosol Laboratories, Cincinnati, O.—Adv.

INCREASED POPULATION  
IS JAPAN'S PROBLEM

Tokio.—Pointing out that Japan's population is increasing 50,000 yearly, Ichizo Hattori, ex-governor of Hyogo prefecture, declared in the diet that the question of how this surplus population would be disposed of is a serious one. He called attention to the fact that there are immense difficulties in the way of emigration and wanted to know the government's policy in dealing with the entire problem.

Premier Hara admitted that the problem was grave, but he did not think it to be so pressing as some scholars and foreigners seemed to consider it. There was still room, he said, both in Japan and in the districts which might be called Japan's sphere of influence for absorbing the increasing population.

The progress of industry in Japan would also need more men. Moreover, the government has been encouraging the cultivation of land. These remedies, the Premier thought, would contribute to the solution of the population question.

CUT THIS OUT

Simple Home Treatment For Pimples, Itches, Facial Eruptions, and Itching Skins.

Those who daily suffer from an itchy, fiery skin, or those who are hourly embarrassed by pimples, rashes or facial blemishes, will appreciate the value of this simple home recipe that so quickly brings relief.

Directions—Cleanse skin with hot water and pure soap. Then rub on a little Gecco Wormwood Balm, and apply hot steam towel. After removing towel, apply more "Balm" and gently massage for 2 minutes. Repeat treatment for four or five nights, and note the wonderful change.

This fragrant antiseptic Wormwood treatment stops the itching immediately, leaving a delightful cooling sensation that quickly soothes and comforts the rough, sore, fiery skin.

Get the genuine "Gecco" Wormwood Balm from any good druggist. It doesn't cost much and you can have your money back if not satisfied.—Adv.

TO REDUCE DANGEROUS  
VARICOSE VEINS

People who have swollen veins or bunches should not wait until they reach their bursting point, which means much suffering and loss of time, but should at once secure from any reliable druggist a two-ounce original bottle of Moore's Emerald Oil (full strength).

By using this powerful, yet harmless germicide treatment improvement is effected in a few days and by its regular use swollen veins will return to their normal size, and sufferers will cease to worry. Moore's Emerald Oil treatment is used by physicians and in hospitals and is guaranteed to accomplish results or money returned.

It reduces all kinds of enlarged glands, goiters and wens and is used exclusively in many large factories as an unfailing first aid to the injured antiseptic. Generous sample on receipt of 15 cents silver or stamps. International Laboratories, Rochester, N. Y. Your druggist or Erman's Arcade Drug Store can supply you.

Exquisite New Silks

## RADIUM PIONEER WILL GET WISH

Mme. Marie Curie to Receive Gift of \$120,000 Worth Mineral.

French Woman Discovers Wonder Element—Will See It Produced.

New York, April 3.—The production of radium on the largest scale in the world, at Pittsburgh will be one of the sights shown to Mme. Marie Curie of Paris, the famous scientist who discovered the wonder element, when she makes her first visit to America next May as the guest of leading American women, who will present her with one gram of radium worth \$120,000.

A fact not generally known is that the United States is now producing more than 80 per cent of the whole world's radium, the former small European production having fallen to negligible proportions. The bulk of the American output originates from the vast deposits in the wildernesses of Colorado and Utah of "carnotite" ore, which is shipped via pack-trails, where rougher, motor trucks and railroads to Pittsburgh, where it is reduced and treated by complicated and little-known processes to produce the fabulously valuable radium salts.

The ore is shipped to Pittsburgh by hundred-tons and the finished product of radium is delivered by mail. Mme. Curie will see in Pittsburgh at the plant of the Standard Chemical Company 500 tons of "carnotite" ore and 1500 tons additional of chemicals and coal used to produce the single gram of radium—about a pin-point, or one-twenty-eighth of an ounce—that she will be presented with. The American miners, six of whom work in the "carnotite" ore and the delivery of the pure radium, and the sale of the gram for Mme. Curie represents nearly a month's output of radium by the greatest of radium producing plants at Pittsburgh.

A western trip that will take Mme. Curie to Colorado, where within an area of about 400 square miles, experts estimate there is enough "carnotite" ore to produce radium to meet the world's increasing uses for years to come, is scheduled on the tentative itinerary of the distinguished woman scientist who expressed the wish to visit the Grand Canyon as well as the Grand Canyon of the West. Mme. Curie is the wife of a physicist to her in Paris last summer of Mrs.

William Brown Meloney, editor of "The Deliberator," who found that the discovery of the priceless boon to humanity not only had never profited thereby, but that she was supporting herself by the small income of a scientific instructor at the Sorbonne University and did not herself own a bit of the precious radium that she gave the world.

When asked what she would choose if the whole world were laid at her feet, Mme. Curie answered: "Only this: enough radium to carry on my work here at the last use. I would like to have a gram of radium which would be not for hospital use or any other use than experimental."

American women quickly organized to arrange for the gift; prominent Americans responded and subscriptions were invited to the "Mme. Marie Curie Radium Fund," of which the Equitable Trust Company in New York is the depository. America's most prominent women, distinguished scientists and leading organizations will join in paying tribute to Mme. Curie, who will be accompanied by her elder daughter, Irène, also a scientist.

At Pittsburgh special preparation will be made to commemorate the latest American methods by which the bulk of radium is being added to the world's supply. The entire world's annual production of radium is about one ounce, or six grams, of which the Pittsburgh plant produces 18 grams. The world's total supply of radium produced since its discovery by Mme. Curie in 1898 up to the close of 1929, is estimated at 149 grams, or about five ounces, of which the Standard Chemical Company plant at Pittsburgh has contributed 70 grams.

Inasmuch as radium is practically indispensable and indispensable, losing one-half of its activity in 1599 years, all production adds to the world's permanent supply and though its successful use in treatment of cancer and other malignant diseases has tremendously increased the demand, its wide distribution in recent years and discovery and development of the great ore tracts of the West by persistent search and toil, together with increased capacity of the chemical laboratories, assure ample supplies.

The rays of radium are the most powerful known and it is 200,000 times more valuable than pure gold.

## SMALL AUDIENCE HEARS M'CONNELL'S LECTURE

Lincoln M'Connell, LL.D., gave a lecture at the high school last night. His lecture was one of the numbers on the English lecture course. His subject was "Chronicles, Their Cause and Cure." Dr. M'Connell is one of the most popular lecturers in the city and his rather small audience here did not do justice to him, although he was well received.

## DRAINAGE WILL INCREASE CROPS

Wellesley College Professor Says Food Production Must Be Greater.

Points Out Areas Where Drainage Work Would Provide Crop Areas.

Wellesley, Mass., April 3.—Drainage of 70,000,000 or 80,000,000 acres in the coastal areas along the Gulf and Atlantic seaboard and undrained glacial tracts particularly in Wisconsin, Minnesota and Illinois, would be one of the surest ways of providing homes and food for a growing population, says Professor Elizabeth F. Fisher of the department of geology and geography of Wellesley college.

The statement of Secretary Hoover of the department of commerce that this country is apparently about to pass from a food exporting to a food importing nation was quoted by Professor Fisher in addressing students as indicating the immediate necessity of increasing the yearly production of food in the nation.

This production, she asserted, could be increased from one-seventh to one-sixth by general application of drainage methods such as those started already in Florida and Louisiana. Gulf and coastal states from Texas to Virginia have many millions of acres of such land and farther north lie other millions of swamp acres in New England and the Middle West where a soil of extraordinary fertility could be uncovered at cost less than that of irrigation in the far west, Miss Fisher said.

"Unfortunately," she continued, "little of this enormous work of reclamation can be undertaken by states, as 96 per cent of the wet lands in the country are owned privately."

Miss Fisher predicted that the time would come when land will be so valuable in this country and new land so desirable that we shall turn our attention to the reclamation of the shallow sea areas, especially on the eastern coast. It is safe to say that as much will be done along this line in the United States in the next century or two as the Dutch have ever done in Holland.

Mohile—"Bill" Wambeganes, Cleveland infielder, sustained a crack in a small bone in his lower right arm while at practice. He will be out of the game at least four weeks.

## WIRE BRIEFS

Laurel—Benny Kauff, outfielder for the New York Giants baseball team, convalescent from a siege of diphtheria, leaves to join his team this week.

Toledo—Two months old son of Mr. and Mrs. F. S. Flektion, found dead in his crib, is thought to have smothered to death.

Cincinnati—Ralph Schappard, Wilkes-barre, Pa., lost the newspaper decision to Billie Ryan, Cincinnati, in 10 rounds.

Cleveland—Mrs. Flora Kennedy, almost 101 years old died at the home of her son in Lakewood.

Washington—Fourteen members of the Japanese parliament will leave Tokyo April 11 enroute to Washington.

Berne, Switzerland—Former Emperor Charles is said to have pneumonia in both lungs, according to an official message received here.

New York—Ed "Strangler" Lewis, San Jose, California, world's heavy-weight catch as catch can wrestling champion, threw John Pease, Revere, Nebraska, with a bar and arm headlock after one hour 34 minutes and 32 seconds.

Montreal—Sergeant Ray Smith, American heavyweight, sustained slight concussion of the brain when he and his opponent, Eddie Ricard, Montreal, fell through the ropes in the second round of their bout here.

## REAL ESTATE MOVING; TRANSFERS INCREASE

A total of 17 real estate transfers affecting property worth approximately \$50,000 was the largest day's business in the recorder's office this year in number of deeds handled. While the amount was also large it has been eclipsed by the sale of more valuable single pieces of city land. On the whole the average of sale is high however and County Recorder Fleming stated today that there has been a noticeable increase in dealings beginning Saturday and this week.

## STATE INSPECTORS ARE AGAIN HOLDING COURT

State Prohibition Inspectors F. S. Evans and J. W. Foster arrived here this morning and with the co-operation of the local police again commenced their investigation of liquor selling conditions here. A number of men were summoned to give testimony today and although Inspector Evans would not state it, arrests are expected here in the next few days as a result of the investigations.

## BOWSER-KILONIS IN ANOTHER MAT BATTLE

Pdul Bowser wrestled John Kilonis to a 30-minute draw in Columbus at the Memorial hall last night in a preliminary to the Caddock-Kotsonaros match. The match was a rough and tumble affair with plenty of slugging and tangle work which pleased the fans.

Jack Burns wrestled Bill Hutton of Utica to a 15 minute draw in another preliminary. Neither man was able to secure a dangerous hold on the other man and neither secured a fall.

In the main bout Earl Caddock defeated George Katsouaros of Columbus, the Greek wrestler, after two hours and 21 minutes of continuous wrestling. The fall was secured with a scissors and arm lock. More than 4000 spectators saw the wrestling last night.

## This is Battery Inspection Week

Free examination and unbiased advice at Prest-O-Lite Service Stations

DRIVE around to the Prest-O-Lite Service Station this week and let experts give your battery the once-over. Get ready for the motoring season just ahead.

No matter what make your battery is, the service station's job is to examine it and advise you intelligently, and honestly. Maybe it doesn't need so much as a drink of distilled water.

Anyhow, it won't cost you a nickel to find out. And now's the time to do that. Some little five-minute adjustment NOW may save you the price of a new battery later.

You are careful to see that your car has gas, oil and water. Don't overlook that equally important element—battery-juice. Every Prest-O-Lite Service Station is a life-extension dispensary for batteries.

When you do need a new battery, you'll be glad to know that Prest-O-Lite is back to pre-war prices and that an allowance will be made on your old battery. Get that examination now.

Storage Battery

Uses less than one four-hundredth of its power-reserve for a single start—and the generator quickly replaces that.

## LEGION MEMBERS TO GIVE DIMES TO FUND

Indianapolis, Ind., April 6.—A call for all members of the American Legion to contribute ten cents to a Memorial Day fund for the decoration of American graves overseas was sent out today in a bulletin from national headquarters of the Legion here.

Many bodies of Americans killed in the World War have been returned to America, but "thousands of our comrades still sleep on foreign soil in compliance with the desire of relatives that they rest forever where they fell," the Legion bulletin says. "One of the relatives of the fallen can go to Europe to lay a memorial wreath on the grave of the dear departed. As last year, the American Legion will perform this sacred service."

Committees have been formed in France and Great Britain, composed largely of Legion men. Posts in England, France, Belgium and Germany, cooperating with these committees, will see that every overseas grave of an American soldier is as fittingly decorated as if all the fallen slept in the soil of the homeland, the announcement adds. Franklin D'Olier, Philadelphia, past national commander of the Legion heads the Committee on Memorials Overseas for America, and assisting him are prominent men from twenty-one states of the Union.

There will be instances in which relatives will wish to contribute expressly for a particular grave, wishing an individual soldier of decoration carried Last Memorial Day, the American

Legion decorated 75,000 graves of Americans in Italy, Spain, France, Belgium, Luxembourg and Germany.

## COUNCIL AGREES

(Continued From Page 1)

against the resolution stating that as the matter was in the hands of the supreme court no such action could be taken now. Council was of the opinion that the council would not be charged with transmitting such requests to the memorial committees, through national headquarters, that every desire of the bereaved families may be complied with.

However, the council would not reverse itself and the matter might be decided before April 20 anyway. In case it is not it will be possible to repeal the resolution.

A petition signed by John Osborn and 1,200 other citizens of Newark asking the council to order the Ohio Electric railroad company from operating one-man cars in the city as endangering human life was referred by council to the city solicitor for a written opinion on the legality of action by the next council meeting.

A report approving the report of Auditor Frye showing a deficit of \$48,419.43 in operating expenses of the city for 1921 was adopted by council.

A resolution for the improvement of Race and South Arch streets by constructing a sewer was adopted on suspension of rules. A similar resolution for the improvement of East Church street was held on first reading to enable the property owners to get together and do the work privately if possible.

Councilman Wolverton requested Clerk Hamilton to refer to a resolution adopted in council last September in which city solicitor was authorized to take such necessary legal steps to get action on the subway matter. Mr. Wolverton had the resolution read so as to assure his constituents that action had previously been taken in council regarding the subway matter.

C. W. Wagner, representing a delegation from Texas, made an earnest plea for aid and action for that district which he represented to be in bad condition. Mr. Wagner asked for personal investigation by members of the council. He stated that Webb street where Texas residents are anxious to secure a subway or overhead outlet is four feet higher than the river crossing at Second street where a subway crossing is planned and he asks for one at Webb street too.

Mayor Atherton reported receipts from peddler's licenses of \$125 during the month of March. He also presented a budget of operating expenses of the city for the year 1922 a total of \$340,236 distributed as follows: Department administration \$5,094, Library \$4,140, Weight and Measures \$975, Human officer \$300, Treasurer \$1,130, Municipal Court \$6,650, Auditor \$3,600, Public Service \$53,000, City Solicitor \$3,890, Board of Elections \$8,355, Safety Department \$103,954, Civil Service \$750, Mayor \$2,145 and Sinking Fund \$135,500. The reports were received filed.

A report from Auditor Frye regarding a bill passed this year by the legislature with the recommendation that an ordinance be prepared and passed was received and filed. The bill provides that a city may use part of the money received from fines in liquor cases for the employment of detectives for the further enforcement of the laws. Auditor Frye also reported estimated receipts for the year 1921 as \$122,348.92 and estimated expenses as \$170,362.35 a deficit in operating expenses of \$48,419.43.

A communication from City Solicitor Ascheroff reported that the case of when Newark Natural Gas and Fuel company to withdraw its service from the city was withdrawn from the public utilities commission on joint application last month without prejudice.

In answer to Service Director Gilchrist's request for a statement of when the Federal Asphalt company would begin work under the old contract for removing of East Main street a letter from the Federal people stated that the company considered the action of her council premature until a final decision of the supreme court has been made. The letter asked council to wait until then for action.

A report of Engineer Wells giving the cost of a sewer on East Church street at First street as \$524.20 was received and filed. Plans for a sewer in Race, Morris and South Arch street with a cost of \$2585.40 were also filed by the engineer.

Engineer Wells in a written report on possible outlets from Texas stated that an underground or overhead outlet at Allen street is not possible because of the prohibitive cost. The one at Barclay street is over a mile long and would cost \$7,000 and would require condemnation proceedings against property owners to secure the land necessary. The report was received and filed.

A petition for a sewer in South Sixth street between Poplar and Calver streets was received in council signed by Francis Oberfield and 20 others. It was referred to the street committee. A similar petition for the paving of the same portion of the street was also referred to the same source.

A petition of protest to the paving of South Sixth street from West Main to Wilson, stating that paving now would be inopportune, add hardship and be high in price was filed with council signed by Mary J. Bickle and 10 others.

A petition asking for the grading and cinder of Arch street as the street is now impassable, signed by F. D. Haynes and 14 others was referred to the service director.

A joint petition from the taxpayers of Texas, the Newark Industrial and Improvement association and the South Newark Improvement association was filed with council.

The petition asks for an outlet at Webb street for Texas and that the city solicitor look into the legal aspects of the possibility of Texas obtaining it and report to the council in writing, for immediate action on the subway and the improvement of East Main street. The petition was signed by 297 residents.

A petition asking for the cinder of North Eleventh street between Soboy and Ash street before the contemplated sewer is installed was filed by Charles E. Daniels and eight others. The petition was referred to the service director.

Mrs. J. W. Hornby and 13 others protested the paving of Curtis avenue from East Main street to Henderson avenue in a petition presented to council last night.

H. C. Richardson of Maple avenue requested an ordinance passed whereby citizens could obtain fertilizer from the city streets for their gardens this spring. He stated that Maple avenue for three miles had lots of it and he wanted permission for its use.

An ordinance granting Edward L. Beeny the right to install a gasoline pump at his curb line at 312 East Main street was passed under suspension of rules.

That nine women in every ten are unfitted to serve on a jury in the opinion expressed by one prominent London magistrate.

## GRANVILLE

(Special to the Advocate.)

Granville, April 5.—Nearly 200 members, associates and guests of the Travelers' club assembled Monday afternoon for the last meeting of the club year in the parlors of the Baptist church. Mrs. A. K. Herrick, retiring president presided and after roll call by Mrs. Pierson, and the secretary's report by Miss McCune announced the opening of the program, a vocal solo, Becker's "Springtime", sung by Mrs. Roberts, followed by a vocal duet, Schubert's "Serenade", sung by Mrs. Kohrer, and Mrs. Cary Jones, with piano accompaniments by Mrs. Darrow.

Mrs. Herrick welcomed the guests and introduced Mrs. Robert F. Griggs of Columbus, whose husband formerly head of the department of botany in O. S. U. is now head of the National Geographic society. On two of the six trips to Alaska made by Dr. Griggs, she has accompanied him, and the topic of her lecture was "Our Newest National Park." Under her guidance, the journey was one of enchantment, through the "Golden Gate Park" of San Francisco, the beautifully laid out city of Seattle, Vancouver, "Kitchikan", Juneau and the Kodiak regions. She said that Alaska possesses a charm from which one never can get away. That the country with its magnificent scenery, its limitless resources every year, more than pays for its purchase price; that the inhabitants possess the sturdy qualities of all pioneers, and that it voted "dry" almost three years before the United States adopted pro-

hibition. She said the magistrate of one of the towns, himself a hard drinker and hard liver, voted dry and is doing his duty in upholding the law which he says is adding yearly to the prosperity of the towns. Mrs. Griggs described in detail the hazardous trip through The Valley of Ten Thousand Smokes, devastated by the eruption of Mt. Katmai in 1912, discovered the next year and named by Prof. Griggs—and her ascent of the mountain—550 feet, actual climbing. The crater is more than three miles across, and a half mile deep. The valley is more than 17 miles long. It is marked by millions of steaming geysers. The region has been taken over by the government as a national park of natural wonders.

All the performers received as favors corsage bouquets and Mrs. Herrick was presented with a dozen carnations as a farewell tribute from the club. At flower-decked tables placed throughout the room, the guests were served with ice cream, cake and coffee by the social committee: Mrs. John Owens, chairman; Mrs. Odette, Mrs. Slack, Mrs. Mary N. Jones, Mrs. Kier, and Miss Daisy Howe.

Seventy-five Masons assembled in the lodge room of Center Star Monday evening to witness the conferring of the third degree on two candidates. Inspection of the work was made by District Lecturer Herbert Harris of Newark, who in an address to the company com-

mended the work of the lodge in high terms. During the social hour which followed, cake and ice cream were served. Thirty-five were present from the Newark lodge.

Postmaster John Geach was elected secretary of the cemetery board at the election held yesterday by lot owners of Maple Grove—a position he has filled by appointment since the death of J. B. Jones. Trustees elected were: Charles Deeds, J. M. Jones, T. A. Williams and E. E. Wright.

The Peace chapter of the Service Star Legion, numbering some 60 members, met Monday evening in the community rooms and enjoyed a concert by the Granville high school glee club, which numbers 25 active members. The club sang five numbers and the quartet composed of Misses Katharine Kohrer, Juanita Jones, Mary Chesshire and Alice Cook sang a group of two numbers: "In the Gloom", and "All on a Sunday morning." Following the program a "hot-luck" supper was served.

The next meeting will be held June 27. The Pythian Sisters will meet Tuesday evening in the lodge room at 8 o'clock.

Yesterday afternoon while playing ball on the public school grounds Alvin Flory, son of Mr. and Mrs. L. N. Flory, had his collar bone broken. Accompanied by several of the boys he walked to the office of Dr. C. J. Loveless, where he received attention, before be-

ing taken to his home in Centerville street.

H. H. Willis of Martinsville is visiting his son, Fred Willis, in Granger street.

C. B. Slack was in Columbus Monday on business.

Mrs. L. H. Cammack of Huntington, W. Va., is visiting at the home of her father, Hiram La Ferre and his sister, Miss Blanche La Ferre.

George Stuart and family spent the week-end at his old home in Mechanicsburg.

Prof. C. H. Dickerman, who spent several days in Columbus, has returned to his home in North Prospect street.

Rowland Sheets is spending his vacation with friends in Cincinnati.

Dr. C. L. Williams of the Denison faculty left early this morning for Styber where this evening he will deliver a chautauqua course lecture on the topic "Making Things Go."

Prof. and Mrs. August Odebrecht and son have returned from a visit with Columbus relatives.

Mr. and Mrs. Alfred Mansfield Colby (Miss Mary McKibben) whose marriage was solemnized in New York City, March 31, will be at home after June 1 at 143 Carpenter road, Mansfield. The bride will be introduced to Mansfield society by her college classmate, Mrs. Elsie Husted Cotter in a series of receptions at her home.

The village council will meet tonight. In connection with the Armistice Day fete in France this year it is proposed to name one of the streets of Paris Rue du 11 Novembre.

## Resinol

relieves dandruff

Dandruff is one of the most frequent causes of baldness and too much care cannot be exercised in getting rid of it. The Resinol treatment is an easy method. Shampoo with Resinol Soap working the lather well into the roots of the hair. Rinse thoroughly and when wholly dry spread the hair apart and gently rub into the scalp a little Resinol Ointment. If carefully done little Ointment will get on the hair. Resinol Soap and Ointment at all druggists.

**PERFECT PROTECTION**—As for the word "perfect," the word of the Lord is perfect; he is a buckler to them that trust in him.—2 Samuel 22:31.

**OHIO'S MONEY AT INTEREST.**

For the ensuing two years the state of Ohio will receive about \$500,000 a year as interest upon public funds. No greater testimonial to the service of former Governor Jackson Harmon and the Democratic leaders and officials of that time could be desired. Governor Harmon, his fellow Democratic officials and the Democratic party in Ohio went into office on a platform pledging to put Ohio's money under the control of the state treasury and the state auditor and to place the money in banks paying the highest rate of interest to the state and not to the officials and the political bosses.

The corrupt ring which had taken millions in interest illegally and put it into their own pockets, was broken up. Favored banks were no longer given huge sums of state money on long time deposits at ridiculously low rates.

The fight of Jackson Harmon, former treasurer D. S. Creamer, former Auditor A. V. Donahay, former Governor James M. Cox to recover these ill-gotten gains is well remembered.

Up to now over \$6,000,000 in interest has been paid into the state treasury by banks that have been the highest bidders for the state's money.

In the recent letting of bids as high as 6.75 per cent. were received. The lowest bidder was in the neighborhood of five per cent. About half a million dollars will be earned annually under these rates.

This is but one instance of the Democratic party's service to the people of Ohio. It is also one of the reasons why certain and numerous big interests in Ohio are aligned with the opposition in every campaign.

**"A NEW SOCIAL ORDER."**

The socialist element, looking around on human society, condemn it as a failure, on account of such conditions as city slums, lack of education, prevailing poverty, overworked mothers, etc.

These are truly great evils. But a change in the arrangements of society would not cure them, while human nature remains as it is. The people who live in big city slums, could not usually be persuaded to go out into whole some country homes. Their sordid surroundings are very frequently the result of some one's dissipation. If the father is spending his money for drink, no new social order is going to make that family happy. Workers who are lazy and shiftless can not expect to maintain comfortable homes.

The present social system represents the best development of human wisdom up to date. It is capable of improvement, but it can not be radically changed while human nature remains selfish.

The kind of social order that is needed, is not sure a different structure of laws and economic arrangements, as the substitution of neighborly interest and co-operation and good will, for the present spirit of "every man for himself." If you abolish private property, you take away the incentives that create progress. But if while retaining private property, you persuade a man to follow the golden rule, then you make possible what is essential a new social order, though the form of it remains the same.

Employers would then do their best to promote the welfare of their help, consulting with them about all their relations. Employees would turn out the best possible product in the fullest possible quantity. Taxpayers would provide such ample schools that every child would go out well equipped for life. There would not be much poverty in such a society.

**ROMANCE OF THE STABLE.**

Farmers who drive horses are complaining that in some towns there is no longer any livery stable where they can put up the old nag when they drive in. The time was when a livery stable was a great social institution. Who doesn't remember Perry Rank's barn or 124 Hand's stable?

When young men wished to win the favor of the belles of the town, the first thing was to invite them for a Sunday afternoon or evening drive. Strict moralists viewed these excursions with some disfavor. One man went so far as to say that no man ever went buggy riding with a girl with proper motives.

but public sentiment never sustained that point of view. In many moderate sized towns, there would be several stables each of which would have 50 to 60 horses clamping away and switching their tails while waiting for some amorous swain or commercial traveller who might desire their services. A fellow who wanted to take his best girl out on Sunday afternoon, needed to speak for a beast at least a week ahead.

The present is sometimes called a horseless age. But a great many more horses are being used than some people think. The Ohio census of 1920, for instance, showed \$10,692 of them on the farms of this state alone, not counting those used in cities and towns for trucking and pleasure purposes. Old Dobbin is not dead yet. Breeders and dealers are confident that horses are more effective at certain kinds of work than any automotive machine can be.

Your best girl may want an automobile now, and the Johnny on the spot salesman will perhaps demand the "gas" buggy. Some livery stables have been changed into garages. Others still flourish, and enjoy reminiscences of the old days. They still serve as hang-outs for those who enjoy cool horse-flesh and like to hear the cheerful stamp and merry whinny of a barnful of steeds. The horse served man faithfully for 5000 years before Henry Ford appeared on this planet.

The bandits and hold-up men may think their crimes should be classified under sporting news, but if they keep on they are going to give the ordinary citizen some work.

The politicians are by no means helpless when they are unable to beat a good candidate. They can always run in a respectable figure-head to divide the vote of the good citizens.

Germans say they were "tricked" into making peace. Jussos, the American soldiers did have a wonderful trick of taking German trenches.

The people who forget to return their incomes to the government, need not think that Uncle Sam will forget to run them into court.

On the theory that women's shoes must meet their skirts, it is about time for the old fashioned long leg boots to be revived.

It is denied that the girl students can't remember dates, as they never forget when they are "kissed out by the boys."

The superfluous government employees are trying to prove their usefulness now by winding red tape with feverish activity.

Reports from the colleges indicate that the boys occasionally turn up at the class room when athletics is quiet.

The merchants who need more floor space are usually those who advertise in the Advocate.

The Russian soviet still seem willing to fight for the privilege of being starved.

**WAITING POT**

Sweet pliability of man's spirit, that can at once surrender itself to illusions which cheat expectation and sorrow of their weary moments. Long long since had you numbered out my days and I had tried to great a part of them upon this enchanted ground.—Laurence Sterne.

**Those Low Necks.**  
A garden I shall make this year.  
I'll raise squashes though, by heck,  
Because the brazen things, my dear,  
Show altogether too much neck.

**Choice Entertainment.**  
Aunt Calline says: "I don't play I am! Gosh! I went down by the depot where they's a man running one of these here merry-go-rounds and nothing would do but Gran'ma must try one of the ponies. I sure did look queer for she's some old an' terrible fat. Pretty soon I looked around and there was Sam Shoppers' little Sam-a-taffin' fit to bust. So I says to him, 'Sammy,' says I, 'if you want to try it, I'll hire you a pony.' I says, 'No thank you, Aunt Calline,' he says, 'if it's all the same to you I'll just take the price an' set here an' watch Gran'ma,' says he."

**The Importance of Brass Tacks.**  
When young people marry and have to dig in and earn a living, by the sweat of their respective brows they haven't much time for correspondents.

**Ways That Are Dark.**  
Of course we still have nearly four years at the throttle, not to say the trough, but we confess that we feel somewhat as a fat girl in genuine heater-mixture stockings must on a warm day when we reflect in our forward-looking way that undoubtedly the paramount issue in 1924 will hinge upon this question: Did we Republicans reduce the taxes?—Ohio State Journal.

And if they work it so that we have nothing left at the end of four years on which to pay taxes, we suppose they'll have the nerve to claim they lowered them.

**Did You Know?**  
That the same Illinois comes from the Indian word "Illini," "men" and the French word "ois," making "tribe of men?"

**THE TARIFF—WEST VS. EAST.**

(Philadelphia Record)  
Reference has been made in these columns to the strenuous denunciation of the Fordney Emergency Tariff bill by the staunch advocate of protection. The New York Tribune, which did not hesitate to stigmatize the measure as "political bunkum" of the worst sort. To this unfavorable testimony it is interesting to add that of another G. O. P. high priest of no less party authority. The Boston Transcript which is the chosen mouthpiece of Senator Lodge in particular, and the New England manufacturing interests in general. The Washington correspondent of The Transcript sees in the determination of the Western Senators and Representatives to press the Fordney bill, purely for political reasons and without reference to the wishes of the rest of the country. The possible ground for a split between the East and the West. Realizing that the proposed excessive rates of duty upon wheat and other food products cannot possibly benefit the western farmer, because of existing economic conditions in this country and Europe, the correspondent, doubtless voicing the views of Senator Lodge, is frankly alarmed over the results of the inevitable reaction against the G. O. P. A few extracts will reveal this Republican renunciation of mind.

The west is insisting upon immediate tariff legislation of the ultra class type, and is making the mistake of believing that the east is hostile to its desires—all this approval of the supposed program of the Republican leaders to put through again the Fordney Emergency Tariff bill practically unchanged. It cannot be denied that the decision has caused intense embarrassment to many Republicans. The emergency tariff bill, which swept Mr. Lodge's office through the last Congress and which even caused the usually placid Senator Penrose, of Pennsylvania to execute a surprising handstand, has brought about a revival of sectionalism which should have no place in Republican politics.

The Fordney Emergency Tariff bill of last session, was regarded by most protectionists as a monstrosity, not because it frankly favored certain farm products, but because of the sincere belief of economists that it could bring no but disastrous results. The sharp increase of farm products in the United States was due not to foreign competition, but to lack of demand, which in turn had its root in lack of credit abroad or, in other words, the inability of the foreign purchasers of the United States to pay for what they wanted.

A Republican tariff bill never could have been passed over by the veto of a Democratic President had it been based on sound economics. But President Wilson was fully conversant with the facts of the last emergency tariff bill, and the market situation has not changed since that veto was written. Congress tried to fool the farmers with the Fordney bill, and now the farmers are trying to fool themselves.

The corresponding depression, the growth of a sectional feeling, not to say hatred, which accompanies very unfortunate results if the misunde standing is not cleared up—unfortunate, that is, for Republican prospects. Clearly in politics as in other matters the adage holds good:

O, what a tangled web we weave  
When first we practice to deceive.

**Twenty-Five Years Ago**

(From Advocate April 5, 1896)  
The April term of the Probate criminal court adjourned this morning, with but few cases on the calendar. The general store of P. R. Wilson of Lower Run caught fire this morning from a defective flue. The loss on the building and stock will amount to \$1,300 on which there was an insurance of \$1,000 on the goods.

**15 YEARS AGO.**  
(From Advocate April 5, 1909)  
Members of the First Presbyterian church are considering building a new church. Samuel Bell fell at his home in Jefferson street and broke his ankle. Plans for the construction of the new shored building were opened Thursday afternoon.

Max Louise Jones spent Thursday and Friday in Granville.

Men? The people of this State have been divided Snickers, and the origin of the term is said to be as follows:—The parties of Blinds were full of holes made by the crag-fish, which burrow to reach the water beneath the soil. In the early days of the country's settlement travellers carried slender hollow reeds which they thrust into these reservoirs, quenching their thirst by sucking the water through these reeds.

**Get Next to Yourself!**  
Go stand upon a mountain top, and cast your gaze afar!  
Look long into the firmament, and be study each great star!  
And you will learn at last, I think, what puny things men are!  
—Luke McLuke.

Should this news get about there'll be a rush of confetti, there'll be fixed and glassy stare,  
And confidently expect that this will make them slim and spare.

**ABE MARTIN**

THIS IS A NEW FIRM GRAND DANCE TROUPE

Will Hays must have laid off yesterday for we didn't even get a fire clerk. What's become of the time wife that used to manufacture a dinner instead of simply assembling one?

**LITTLE TALKS ON THRIFT**

by S. W. STRAUS, President American Society for Thrift.

It is a matter of great importance to the country that steady progress is being made in the introduction of thrift teachings in the schools, which is being accomplished through the application of the thrift principle to various branches of study. Educational tendencies today are more toward equipping the child for constructive citizenship than for merely filling the youthful mind with abstract knowledge. Educators are discovering that many of the problems of practical life can be demonstrated in the laboratory of the class room. We cannot get away from the fact that the world of tomorrow is sitting in the school room of today. Manhood's deeds are mostly childhood's ideals and ambitions grown up.

If humanity is to have the material, physical, mental and moral values that come from thrift, the foundation must be laid in the school room. Unfortunately there has been a somewhat general misunderstanding of the true meaning of thrift, and we sometimes hear it given encouragement today as though it consisted only of the purposeless hoarding of money. To be sure money saving is one of the good children of the thrift family, but there are many other

children in the family equally as good. Money is a mere symbol of wealth, and its true worth is only to be measured by the power it contributes as a constructive force for human betterment. The possession of money gained through thrift and rightful industry gives the poise necessary to human happiness and success, but the gaining of money merely for the sake of possession without thought of the good and rightful uses to which it can be applied, is not within the true meaning of thrift.

While it is gratifying to observe that more and more attention is being given to thrift inspiration in the minds and hearts of the school children, it is most essential that this subject be approached with care and understanding. Above everything else let us not teach thrift from the standpoint that it merely means putting away money, wearing patched clothes or glorifying greed and tightfistedness.

These concepts do not harmonize with the American spirit and American ideals.

Let us give to posterity through the medium of our schools the thrift of efficiency and progress and the encouragement of every phase of rightful human progress.

**BORROWED HUSBANDS**  
By MILDRED K. BARBOUR

**LXXIV.—The Strong Arm of Devotion.**

Desmond was waiting quietly on the lounge when Nancy and Connie joined him.

He sprang up at their approach, his handsome face full of anxiety and concern. His glance was for Nancy alone, and when she looked up at him with the pathetic expression of a hurt child, the tenderness that flashed in his eyes brought tears to Nancy's.

She forced them back resolutely and extended her hand with a pathetic little gesture.

"I am in very deep trouble, Major. Will you help me? Will you not from the St. Cloud company any information you can about an accident on one of their boats yesterday. I will explain when you have done this for me. It is a long story and I am not quite equal to it now."

Desmond loved his obedience, his eyes still searching her face anxiously.

"You have had a shock. Didn't you better go upstairs and rest? You are staying here, are you not, Mrs. Stanley?"

Connie nodded, and slipped her arm through Nancy's.

"I wired for reservations before I left New York. Have you seen my husband? He is here too."

"I know where I can find him," Desmond replied.

He turned to Nancy.

"Would you like me to send for Dr. Langwell? He could give you something to brace you up."

Nancy shook her head mechanically. She was moving like an automaton, her mind fixed by her subconscious mind which compelled her to seek and act and smile as though her heart were not quite laden.

"Poor Dr. Langwell has trouble enough already. I'll wait for you in Connie's apartment."

When they went upstairs in the wake of a bell with luggage and were ushered into a suite, Nancy stopped, with a little cry.

It was the identical apartment where she and Gerry had said their bitter farewell on the night of his hasty departure for Peru.

Utterly overwhelmed, she sank into a chair and covered her face with her hands.

"Don't give way, dear!" urged Connie, briskly, as she went about opening windows and closed doors, giving the apartment a swift and critical scrutiny. "There may be some mistake, you know."

It was typical of Connie to accept other people's calamities cheerfully. She was the type that gets a morbid thrill out of the "last hours" of distant relatives and the obsequies of acquaintances.

Nancy made no reply. She sat staring down at the rug at her feet, the same rug at which she had looked with such resentful eyes the night of the last quarrel with Gerry.

The telephone rang suddenly. Connie answered it eagerly.

"Of course! Why didn't you meet me? Come up right away. . . . Curtis, you've been drinking!"

She replaced the receiver on the hook and turned to Nancy.

"Now we shall soon know the truth. Major Desmond has told Curtis that we are here, and he is on his way up."

There was a knock on the door. Curtis Stanley, flushed and grinning foolishly, came in.

**The Newest Near East Geography**

The accompanying map aims to show the extent of the operations of Near East Relief and also by contrast how comparatively limited is the Armenian area in the Near East controlled by the Bolsheviks.

Wherever in the Near East there are destitute Armenians, Syrians, Greeks, Jews, Assyrians, or others, needy and oppressed, regardless of race or creed, there Near East Relief follows. From Constantinople to Bagdad, from Port Said to Baku, even into Persia, the protecting arms of Near East Relief have reached until today its work is far more extensive outside the country of Armenia than within.

**HUMANE OFFICER'S WORK.**

Humane Agents activities for March included the following:

Children's Department: Adults 3; Children 5 Cases investigated; the Humane Officer with the co-operation of other agencies was instrumental in having placed in the Children's Home 4 children.

Animal Department: Animals involved including those in transit 625; Cases investigated 13; Cases inspected 9; Animals destroyed 4; Cases of cruelty 3. Many horses were ordered blank-

eted and shot during the cold and rainy weather. Thirteen calls were made.

**JAP SOE SISTERS ORGANIZE.**  
Osaka, Japan.—An organization of women journalists has been formed here by the women reporters of daily newspapers and the women editorial workers on other periodicals in Osaka. Elevation of their social status as journalists "who are participating in the promotion of general culture as well as in raising the position of women in Japan" is
